67 / 100 Speed

Should Fix:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- http://marketsmaster.org/img/ad_leaderboard.png (expiration not specified)
- http://marketsmaster.org/img/ad_sidebar.png (expiration not specified)
- http://marketsmaster.org/img/ad_top.png (expiration not specified)

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking script resources and 1 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Remove render-blocking JavaScript:](#)

- <http://platform.twitter.com/widgets.js>

[Optimize CSS Delivery](#) of the following:

- http://marketsmaster.org/img/css_e060b7195c11d86e0f5fe5111b29b7e6.css

87 / 100 User Experience

Should Fix:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 965 CSS pixels wide, but the viewport is only 580 CSS pixels wide. The following elements fall outside the viewport:

- The element `<iframe id="twitter-widget-0" src="http://platfor...=1510664723798" class="twitter-follow...utton-rendered">` falls outside the viewport.
- The element `<iframe id="twitter-widget-1" src="http://platfor...=marketsmaster" class="twitter-share-...r-tweet-button">` falls outside the viewport.
- The element `<iframe src="https://www.fa...how_faces=true" name="f215084508" class="">` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `<div class="breadcrumb"></div>` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `<div class="subtitle">Unleash Your I...Marketsmaster</div>` falls outside the viewport.
- The element `<p>AddThis Backli...R10 backlinks.</p>` falls outside the viewport.
- The element `<p>U.S. Departmen...nd vice versa.</p>` falls outside the viewport.

- The element `<i class="fa fa-signal">` falls outside the viewport.

Consider Fixing:

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `Follow @marketsmaster` is close to 1 other tap targets final.
- The tap target `80.6K followers` is close to 1 other tap targets.
- The tap target `Terms of Use` is close to 1 other tap targets.
- The tap target `<button type="button"></button>` and 1 others are close to other tap targets.
